WEEK OF ROAD TRAFFIC SAFETY

Decade of Actions Aiming Road Traffic Safety (2011-2010)

ORGANIZER: MINISTRY OF HEALTH OF UKRAINE
COORDINATOR: STATE ENTERPRISE «UKRAINIAN RESEARCH INSTITUTE OF TRANSPORT MEDICINE OF THE MINISTRY OF HEALTH OF UKRAINE (KYIV INTER-REGIONAL OFFICE)»

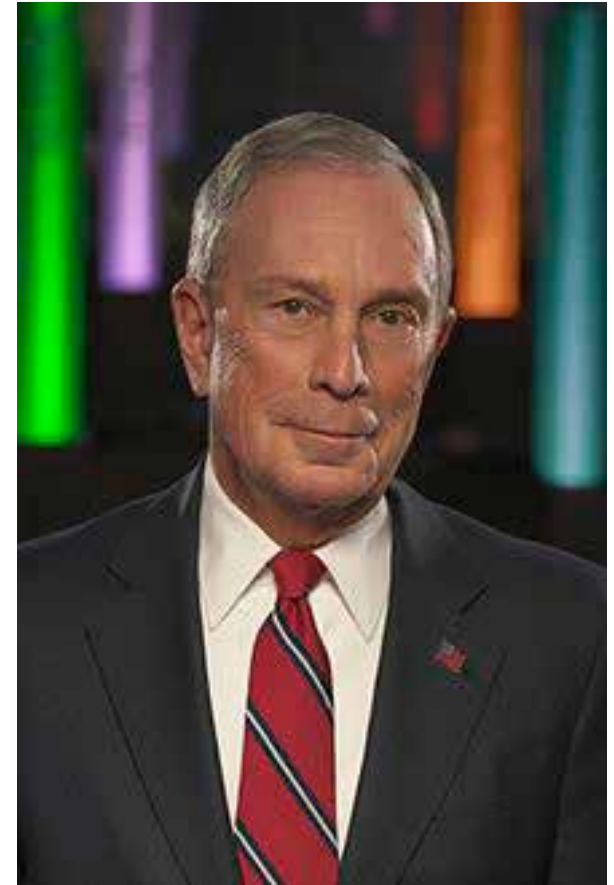

According to the WHO report on the global state of road safety in 2018, 1 million 350 thousand persons perish each year because of fatal road traffic accidents (RTAs), about 50 million becoming traumatized. Traumas due to road injuries score the 8th place in the list of mortality causes. Traffic fatalities are the leading cause of mortality among young people aged from 15 to 29 and the second one among younger persons - children aged from 5 to 14. In Ukraine the highest quantity of RTA fatalities belongs currently to pedestrians (42%); drivers and passengers of 4-wheeled cars and light vehicles (16%, 18%), motorcyclists and cyclists scoring the last positions (9% and 7%, respectively).

Noncommunicable Diseases and Injuries

Accident statistics for roads of Ukraine

During 11 months of 2018:

- 135,695 RTAs had place, this level being almost by 8% lower comparing to the previous year;
- 3,024 persons perished, including 165 children;
- 28,305 persons obtained traumas, including 3,777 children.

Strategy to increase the road traffic safety level in Ukraine for the period up to 2020

approved by the order of the Cabinet of Ministers of Ukraine
(14.06.2017, N 231-p)

to fulfill the aims determined by General Assembly of the UNO
in frames of the Decade of Road Traffic Safety (2011-2020)

Plan of actions concerning the Strategy aiming the increase of road traffic safety in Ukraine for the period up to 2020
[approved by the order of the Cabinet of Ministers of Ukraine (28.03.2018, N 231-p)]

Governmental Program aiming the increase of road traffic safety level in Ukraine for the period up to 2020 [approved by the order of the Cabinet of Ministers of Ukraine (25.04.2018, N 435)]

The purposes of actions being carried out during the Week of Road Traffic Safety are the following:

- to attract the attention of state organs, public organizations, mass-media, and society representatives to especially complex situation concerning the traffic safety;
- to consolidate all the efforts of state power organs, local self-government organs, transport and road keeping managers, education and scientific research institutions, insurance companies, representatives of public organizations and professional circles concerning the working-out and realization of actions aiming the road traffic safety in our country;
- to increase the responsibility of all road traffic participants as well as of competent organs for motor roads safety;
- to increase the knowledge of all citizens and especially of rising generation concerning their behavior on roads, to ensure their basic experience in pre-hospital aid necessary for RTA victims.

National Forum on the Road Traffic Safety

Bogdan Matkivski,

Deputy of the Verkhovna Rada,
Secretary of the Committee for Problems
of Economic Policy of Ukraine

«We need consolidation of efforts of state organs and of all the responsible institutions intending to determine and to design the actions permitting to improve the road traffic safety and to reach such important aims as:

- *to diminish the quantity of RTAs in Ukraine, to decrease the levels of RTAs-due*
- *traumas and mortality, to increase the indices of road safety to European ones;*
- *to decrease the severity levels of RTAs as well as of their negative consequences;*
- *to diminish RTAs-due social and economical losses as well as damages;*
- *to improve the state of street-road infrastructure;*
- *to increase the level of road traffic rules keeping by all the traffic participants;*
- *to keep all the possibilities of Ukraine as a transit state.»*

The 15th
of November
2018, Kyiv

National Forum on the Road Traffic Safety

«We are to aspire to implement in Ukraine the European conception of null mortality on roads. I think the programs and actions we have on hand at the moment give us the possibility to reach this aim; we are only to raise the level of their realization and control. It is also important to understand some local problems of traffic safety in road points where RTAs take usually place.»

Igor Didenko,

Deputy of the Verkhovna Rada,
Chief of the Subcommittee for
Problems of Auto-Traffic Safety
of the Verkhovna Rada
Committee of Transport
Problems
